

*SRT 6100*

# High Definition Digital Video Recorder

High Definition, 1TB Hard Drive, Twin Tuner

# Key Features overview

- ▶ Full High Definition Quality
- ▶ 1Tb Built in Hard Drive
- ▶ Twin Tuner
- ▶ MPEG-4 Compatible
- ▶ Multiple outputs
- ▶ Plus more additional features

# Full High Definition Quality

- ▶ The **SRT 6100** supports video resolution 1080i/720p/576p/i. This means it will work on the latest HD Panel TVs, even 3D TVs but it will also work on older TV, as long as it has at least the red, yellow and white connections (Composite).
- ▶ Super sensitive tuner means that your **STRONG** DVR can pick up in even weak signal areas.

# Smart Series Record

The **SRT 6100** features Smart Series Record\*

- ▶ You can record every episode of your favorite TV Programs with this simple and easy DVR.

Smart Series Record

\* Series recording is based on EPG text broadcasted by networks.

# Recording Features

- ▶ The **SRT 6100** comes with a built in 1TB Hard Drive, this will record approximately 120 hours in HD or 500 hours SD
- ▶ Twin Tuner; record two shows while watching another (from 2 networks), with adjustable auto padding, even on SSR - so you don't miss the end of show.
- ▶ Record to external USB Hard Drive for even more storage. You can copy from internal to external Hard Drive, or use external Hard Drive as default drive for recording.

# MPEG-4 Compatible

- ▶ MPEG-4 Compatible simply means that it will play all current broadcasts (MPEG-2) and the new 3D broadcasts (MPEG-4). This means that you can record and playback any 3D broadcasts on a 3D TV.
- ▶ Of course it will easily record standard MPEG-2 coverage.
- ▶ In the event that broadcasters show more MPEG-4 programming you will also be covered

# Multiple Outputs

- ▶ The **SRT 6100** has multiple outputs so you can connect to almost any TV;
- ▶ HDMI, Component, Composite, and S/PDIF Digital Audio

# Additional Features

- ▶ Pause and rewind Live TV
- ▶ Chase Play, watch the start of a recorded program while it's still recording.
- ▶ Time Shift (can be turned on or off), buffer can be set for 30mins, 1 or 2 hours
- ▶ Ad skip, adjustable to 30secs, 1 or 2 min
- ▶ Timer recordings; once, daily, weekly etc.
- ▶ On Screen 7 day EPG, with one touch record
- ▶ Multimedia playback via USB; AVI, JPEG, MP3, DIVX, MKV and more.

# Easy Installation - HDMI

The **SRT 6100** has multiple outputs so you can connect to almost any TV;

- ▶ Connect aerial cable from wall to unit. 1
- ▶ Easiest connection is via HDMI; connect cable(not supplied) straight from DVR to TV, select HDMI input on TV and then auto scan channels, and that's it!

# Easy Installation - Component

- ▶ Connect aerial cable from wall to unit. **1**
- ▶ Connect the Component cable (not supplied) Video via Red, Green & Blue, then Audio via Red & White sockets straight from DVR to TV, select AV input on TV and then auto scan channels.

# Easy Installation – Composite/RCA

- ▶ Connect aerial cable from wall to unit. **1**
- ▶ Connect Video via Yellow, then Audio via Red & White sockets straight from DVR to TV, select AV/Video input on TV and then auto scan channels.

# Contents

The **SRT 6100** comes complete with the following;

- ▶ 1 x Digital Video Recorder
- ▶ 1 x User Manual & Installation Guide
- ▶ 1 x AV Leads (composite)
- ▶ 1 x Remote and batteries
