

STRONG SRT BT2 RECHARGEABLE BLUETOOTH MINI-SPEAKER & SPEAKERPHONE

USER GUIDE

REV. 1.2

NOTES

- When the speaker is turned ON, for the first 12 seconds it will automatically search for the last device it was connected to. If that device is not available then the speaker will search for new devices. In this pairing mode period, the LED indicator will flicker blue and red.
- To save power, the speakers Bluetooth module will automatically shut down after 3 minutes if it is not paired with any Bluetooth device, the LED indicator will flicker blue.
- If you wish to reconnect the Bluetooth speaker, to your audio source turn the speaker Off and On again.

- The speaker is compatible with the 2.1+EDR protocol. Full Bluetooth functionality and volume control cannot be guaranteed if the audio source has an older Bluetooth protocol.

INTRODUCTION

Congratulations for purchasing the STRONG SRT BT2 Bluetooth Mini-Speaker. The speaker features high quality amplifiers with improved bass and treble even at high volumes. This is supported by a high-capacity lithium battery for up to 6 hours wireless (or 10 hours wired) playback time on a single charge. The speaker is extremely easy to operate and it is also compatible with non-Bluetooth devices when connected via the line-in cable and also supports hands-free function to answer calls.

GENERAL GUIDELINES

- Keep away from high-temperature or prolonged exposure to sunlight
- Avoid contact with liquids
- Do not drop the product
- Do not insert any conductive objects into the sound box
- Do not disassemble
- Keep out of reach of children

PACKAGE CONTENTS

- 1 x Rechargeable Bluetooth Mini-Speaker
- 1 x Mini USB Charging Cable with 3.5mm Audio Connectors
- 1 x User Guide

— 1 —

WIRED MODE

- Using the supplied cable connect the 3.5mm stereo jack to your audio source and connect the Mini USB jack to the speaker.
- Turn the speaker ON.
- You can now begin playing music.
- Please ensure you have disabled the Bluetooth function on your device if it was connected to the speaker prior to playing music in wired mode.
- You can also connect to your audio source using the line-in cable which is located in the bottom of the speaker.

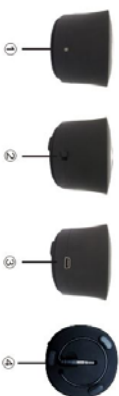

WIRE CONNECTION DIAGRAM

- Mini USB Plug
- Mini USB Socket
- Universal 3.5mm Audio Socket
- Standard USB Plug
- Standard USB Socket
- Own line-in cable

— 5 —

- Compatible with-
 - iPhone/iPod/iPod Touch
 - Bluetooth enabled mobile phones
 - Laptops
 - Tablets
- Any audio devices with audio outputs (separate cables not supplied and may be required to connect to all audio devices).

PRODUCT OVERVIEW

- LED indicator
- Power Switch
- Mini USB Port
- 3.5mm audio cable

CHARGING

- To charge the speaker, connect the USB cable directly to a PC or laptop or to a USB AC Adaptor. (AC Adaptor not supplied)
- The LED indicator on the speaker will turn red when charging.

— 2 —

HANDS-FREE MODE

- Please ensure the 3.5mm line-in cable is not connected.
- While you are listening to music via your mobile phone using Bluetooth, if you receive a call, answer this call directly on your mobile phone.
- Sound from the call will be heard via the speaker and the inbuilt micro phone will relay your speech to the caller.
- Streaming audio will begin automatically once call is ended.

- Bluetooth Protocol: 2.1+EDR (support A2DP)
- Transmission Distance: Up to 10 meters (open space)
- Amp. Frequency Range: 180Hz-20KHz
- Signal/Noise Ratio: >80dB
- Driver: 4ohm, Φ 40mm
- Rating Power: 2W (with amplifier)
- Line Input: Φ 3.5mm
- Rechargeable Battery: 400mAh Lithium Polymer
- Battery Voltage: 3.7V
- Full Charging Time: 3~4 hrs
- Charging Voltage: 5V
- Power Input: Mini USB (5V/500mA)
- Net Weight: 75g
- Dimensions: 65mm (D) x 48mm (H)

— 6 —

- The LED indicator will turn off once the battery is fully charged.
- The speaker can be used while being charged, the LED indicator will flicker blue and red.
- Full charging time for a flat battery is 3~4 hours.

BLUETOOTH WIRELESS MODE

- Make sure the 3.5mm line-in cable is not connected.
- Turn the speaker ON. You will hear a special tone to indicate the Bluetooth mode is enabled; the LED indicator will flicker blue.
- On your phone or laptop search for a new Bluetooth device called "SRT BT2".
- If you are asked for a password enter "0000".
- You will hear a short beep once the two devices are paired, the LED indicator will flicker blue.
- You can now start streaming audio from your music source.

— 3 —

NOTE

Playback time varies depending on several factors including source volume, type of music and (in wireless mode) distance from source.

TROUBLE SHOOTING

Q: The speaker stops responding after some time.

A: Battery is low and must be recharged. A fully charged speaker can generally play for up to 6 hours in wireless or up to 10 hours in wired mode.

Q: Power Switch is ON but the LED indicator light is off.

A: Battery is flat. Connect USB cable to a power source and fully recharge the speaker.

Q: The LED indicator is ON but there is no sound.

A: If in wired mode, check that the 3.5mm audio cable is firmly connected to your audio source and that the battery is fully charged. If in wireless Bluetooth mode try turning the speaker OFF and ON again.

Q: Speaker does not recharge.

A: Check that the USB cable is firmly connected and that the power adapter or PC USB port is not faulty.
