User Manual

Warranty Information

This product comes with a 12 month manufacturer's warranty from the date of purchase.

This unit has a 30 days replacement warranty for manufacturing faults.

Within this period please return the faulty product with all its supplied accessories to either the place of purchase or **STRONG Australia** accompanied by the original purchase receipt.

After this 30 days period the unit must be returned to **STRONG Australia** for testing, and if deemed faulty, will be repaired or replaced at the discretion of **STRONG Australia Pty Ltd**. The faulty product can either be sent to **STRONG Australia** directly or via your place of purchase for evaluation.

STRONG Australia will cover any reasonable costs incurred in returning the faulty product for evaluation should the product be deemed as genuinely faulty. If the product is found to have no fault, the costs incurred in delivering product to and from **STRONG Australia** will be the customer.

Our goods come with guarantees that cannot be excluded under Australian Consumer Law. You are entitled to a replacement or refund for major failure and for compensation for any reasonably foreseeable loss or damage. You are also entitled to have goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Instruction

Safety Precaution

This STB has been designed and manufactured to satisfy the international safety standards. Please read the following safety precautions carefully before operating this receiver.

Main Supply:

Before operating, please check the units operating voltage is 100-240V AC 50/60HZ

ⓂOverload:

Do not overload a wall outlet, extension cord or adapter, neither use damaged power cord or touch it with wet hand as this may result in electric shock.

ⓂLiquid:

The receiver shall not be exposed to dripping or splashing water, and that no objects filled with liquids, such as base, shall be placed on the apparatus.

ⓂVentilation:

Keep the slots on top of the receiver uncover to allow sufficient airflow to the unit. Do not put the receiver on soft furnishings or carpets. Do not expose the receiver to direct light or do not place it near a heater or in humid conditions. Do not stack other electronic equipments on top of the receiver.

ⓂCleaning:

Plug out the receiver from the wall outlet before cleaning. Clean the receiver by a soft cloth or mild solution of washing-up liquid (no solvents).

ⓂConnection:

Disconnect the receiver from the mains when you connect it to ANT or disconnect it from ANT. Failure would possibly cause damage to the ANT.

ⓂLocation:

Put the receiver indoor in order to avoid lightening, raining or sunlight.

 **Uncover:**

Do not remove the cover, to reduce the risk of electric shock. Contact qualified and licensed service personnel to repair the receiver, or contact your dealer.

Manual Search

PAL/NTSC Conversion

True full Color (32 bits) on screen display (OSD)

2 menu languages supported:English and Thai

Multi-language audio supported

Multi-language DVB Subtitle output

7 days Electronic Program Guide (EPG)

Teletext output through VBI and OSD.

USB 2.0 Interface

Software update:

If new software becomes available for this model, it can be downloaded from our website (www.strong.com.au) and then placed onto a USB. Plug in the USB into the USB port on the unit and then go to:

Menu →System →Software Update→USB Upgrade

Product Overview

2.1 Front Panel

1. **USB2.0** : One USB 2.0 Host Port.
2. **Power /Signal light** : Power /signal indicator.
3. **Display** : It displays channel information. In standby mode it displays local time.
4. **Power button** : Switch between operation and standby modes.
5. **▲** : Change channel in viewing mode and move the cursor up in menu mode.
6. **▼** ; Change channel in viewing mode and move the cursor down in menu mode

2.2 Rear Panel

- 1) **ANT IN** : Connect the antenna cable.
- 2) **ANT OUT** : Loop out to pass signal through
- 3) **COAXIAL** : Digital Audio output (Optical).
- 4) **DV-OUT** : Connect to the TV using an HDMI cable (not supplied)
- 5) **AUDIO (R/L) / VIDEO** : Connect to the TV using RCA cabling
- 6) **DC-5V** : Connect to the power using power adapter.

Note: For best results, use HDMI cable and RG6 Quad Shielded antenna cabling

2.3 Remote Control Unit (RCU)

You can control this receiver by this remote controller with full function.

1. **POWER**: Switch between operation and standby modes.
2. **MUTE**: Mute audio.
3. **▶||** : Play/Pause .
4. **USB/■** : enter USB menu/stop function.
5. **●** : Record.
6. **INFO** : Display the programme information.
7. **◀◀/▶▶**:Previous/Next.
8. **◀◀**:Rewind
9. **▶▶**:Fast forward.

- 10. SUB** : Display the subtitle language list
- 11. Recall** : Show the previous viewed channels list or switch to previously viewed channels
- 12. ▲/▼:Change channels
- 13. **OK**: Confirm the selected operation or display the channel list while watching a programme.
- 14. ◀/▶:Change volume .
- 15. MENU**: Activate main menu or exit to live channel.
- 16. EXIT**: Exit current menu step by step.
- 17. **VOL+/-**:Change volume.
- 18. EPG(Electronic Program Guide)**: Display the programme guide.
- 19. Timer** : Setup event timer/timer recordings
- 20. **CH+/CH-**:Change channels
- 21. NUMERIC KEY (0~9)**: Enter a TV/radio channel number, menu option number
- 22. ASPECT**: Change the screen mode.
- 23. TV/R**: Switch between TV and RADIO.

3. Installation

You should install the receiver when powering on your product for the first time after purchase.

***Tip:** The default password is 0000. If you have forgotten your password, please contact your local product distributor.*

3.1 Manual scan

Manual scan function would only add newly found services to STB database, without any database clearing action. User needs to know the target scan frequency and bandwidth in advance.

- (1) Press <OK> to enter “**Manual Scan**” menu.
 - (2) Press <Up/Down> to focus on “**Frequency**” .
 - (3) Press GREEN button to add Frequency and press <0 ~ 9> to input frequency value.
 - (4) Press YELLOW button to edit Frequency.
 - (5) Press BLUE button to delete Frequency.
- Press RED button to start manual scan and press <Exit> to cancel scan**

3.2 Auto scan

Auto scan function would empty all services in STB database at first. Then scan the frequencies one by one, which are stored in the default frequency table corresponding to current “**Country Setting**”.

- (1) Press <OK>. will appear a choice to network search yes or no.
- (2) Press <OK> start auto scan whether network search yes or no.

3.3 Antenna power setting

This is DVB T2 5v control – for passive antennas, please set it to OFF. If active antenna, off or on does not matter.

3.4 Factory Default

You can restore the product to the factory default and you can also set it up according to the wizard.

1. **Menu->INSTALLTION -> Factory Default**
2. Input the password (**default password is 0000**)
3. Highlight the option you want and press the **OK** button to execute it.

Tip: If you select “yes”, all data and settings will be lost.

4. Edit Channel

In the Channel menu, you can edit the channels that you want to play in the Normal Play mode. The functions available here include TV channel editor, Radio channel editor.

4.1 TV/Radio Channels

Menu->EDIT CHANNEL->TV/Radio Channels

Edit Channels enables you to move, delete, rename, lock/unlock, the channels in the channel list conveniently, you can press ◀/▶ button to move, delete, rename, lock/unlock, press ▲/▼ button to select channels.

Tip: Radio Channels operation similar to the **TV Channels**.

Note: If the highlighted channel is locked, press the **OK** button to switch to Unlock.

4.2 TV/Radio Favorites

Menu->EDIT CHANNEL-> TV/Radio Favorites

You can add or remove channels from the favorite groups.

4.3 Sort Channels

Menu->EDIT CHANNEL -> Sort Channels

Highlight the option you want and press the **OK** button to sort the channel list. You can sort by LCN (logical channel number), Transponder, Default, Favourite, alphabetical and provider service ID.

4.4 User Channel List

User Channel List allows you to save or load all the data and settings.

1. Menu->EDIT CHANNEL -> User Channel List->Save User Data

5. Settings

5.1 System Settings

Menu->SETTINGS->System Settings

Tip: You can set all the settings here by pressing **VOL+/VOL-** button.

1. **Menu Language:** Set the menu language.
2. **Audio1:** Set the preferred audio language.
3. **Audio2:** Set the sub-prime audio language.
4. **Subtitle Language:** Set the subtitle language (if available)
5. **Subtitle control:** Select ON to view subtitles or select OFF to disable them.
6. **EPG Language:** Set the EPG language.
7. **LCN:** LCN lock switch – locks channels in logical channel number
8. **Digital Audio:** If a channel has AC3 and PCM audio language at the same time, when you select **RAW** it will set AC3 audio language as default output and when you select **PCM** it will set PCM audio language as default output automatically when you highlight the channel. If you set OFF, in the channel list when you highlight the channel, you should press the OK button to play it.
9. **Auto Channel Selection:** If you set **ON**, in the channel list will play automatically when you highlight the channel. If you set **OFF**, this function is not available.
10. **Auto Exit CH List:** If you set **ON**, the channel list will disappear when you press OK on a Highlighted channel. If you set **OFF**, it will not.
11. **Source signal type :** Choice source signal type of T or T2.
12. **Recall List:** If you set **ON**, when you press Recall button of RCU you can get the recall list. If you set **OFF**, when you press recall button you can go back to the last program you have selected.
13. **Low power standby:** switch to low power standby.

14, **Front Panel Light:** Changing the value of this option allows you to adjust the brightness of the front display panel.

5.2 OSD Setup

1. **Menu Transparency:** Set the transparency of all menus.
2. **Display Mode:** Select the output resolution between 1080p, 1080i, 720p, 576i or 576p, 480i or 480p.
3. **TV Type:** Set the TV Type on **PAL/NTSC/Auto** state.
4. **Screen Mode:** Set the display format according to the screen ratio. Select TV screen mode either 4:3 or 16:9 according to the TV type, or press the **MODE** button of RCU directly.
5. **OSD Timeout:** Set the time of the OSD to disappear after no remote control action.

5.3 Parental control

Menu-> SETTINGS ->Parental Control

Parental Control allows you to set limits for each program or change your previous password. You can also lock the changes you have made using **Installation Lock, Edit Channel Lock** and **settings Lock**. And you can change **Age Rating**.

5.4 Calendar

Menu-> SETTINGS ->Calendar

You can use button CH+/- and VOL+/- and 2,4,6,8 to adjust the date. Pressing the GREEN button, you can add a memo.

5.5 Color Settings

Menu-> SETTINGS -> Color Settings

Color Settings you can edit the Brightness, Contrast and Saturation.

6 Clock/Timer Settings

Menu-> SETTINGS ->Times

6.1 Time Settings

Menu-> SETTINGS ->Times->Time Settings

Time Settings will set the time mode, time zone and summer time.

6.2 Event Timer

Event Timer You can set up to 8 timer events. It will record or play the program automatically according to the timer event list that you set.

1. *Menu-> SETTINGS ->TIMES-> Event Timer* or press the **TIMER** button directly.
2. Press the **RED** button to setup a timer, and press the **OK** button to save the timer after setup.
3. You can press **GREEN** button to edit timer.
4. You can press **YELLOW** button to delete timer.

6.3 Sleep Timer

SLEEP Timer can set the automatic turn off time.

1. *Menu->SETTINGS ->TIMES-> Sleep Timer.*
2. Press the **VOL+/VOL-** button to select the option or input the number at “--**Min**” option.
3. Press the **OK** button to save.

6.4 Standby Time

If set YES, the receiver will go to standby mode after the timer, if set NO it won't be standby.

7. Expansion

7.1 Games

Menu->EXPANSION-> Games

Games In this menu there is a selection of games that you can play.

7.2 USB

Menu->EXPANSION-> USB or press the **USB** button directly

Note: It supports FAT, FAT32 and NTFS format USB disk or USB HDD.

1, Tool

In USB menu, you can press the RED button to select Rename/Delete/Move To/Copy To/ sort the folders the files. And also can create the new folders and format the disk.

2. Play Mode

- **Loop** : Set the Loop state on Normal, Reverse, Random, Single or Off.

- **Slide Show Interval** : Set the Slide Show Interval from 2S-10S.

- **Photo View Mode** : Set the Photo View Mode state on Full Screen, 2x2 Thumbnail or 2x3 Thumbnail.

3. PVR Setting

- **Record Partition** : Select the Partition where save your record or other

result of your operation.

- **Record Mode** : Set the Record Mode Channel or Transponder.
- **Record Type** : Set the Record format to TS or PS.
- **Record Time** : Set the Record Default Time off, 30, 60, 90, 120 minute or input number directly.
- **Auto Timeshift** : Set timeshift mode to auto when recording
- **Timeshift Buffer Size(MB)** : Set the Timeshift Buffer Size between auto, off, 100, 200, 400, 800, 1600, 3200 or 6400MB.
- **Timeshift Need Save** : Set if the Time shift portion is to be saved to the external media as a recording
- **Play Start Pos** : When playing the PVR file, set the Play Start Position whether head/start of the file or last position (when last stopped in playback) of the file.

10. USB Control

10.1 Recording and Timeshift

10.1.1 Recording

You can watch another channel from the same frequency while recording. At the same time, you can record two channels in the same frequency. You can also do many operations while recording.

10.2 PVR List

You can enter the PVR list directly and then play the PVR file. In the PVR list you also can delete the PVR files.

11. Additional Information

11.1 Trouble Shooting

Before contacting your local service centre, please read the tips below carefully. If the problem persists after completing the following procedure, please contact your local product distributor or service centre for further instructions.

1. No message displayed on the front display. (The product will not switch on.)

- Check the main power cable and make sure it is plugged into a suitable power outlet.
- Check that the mains supply is switched on.
- Connect the power cable to a different power outlet.
- Check that the power switch is on at the rear of the product. (where applicable)

2. No picture

- Make sure that the product is powered on and in operation mode. (Press the STANDBY button)
- Make sure that the AV (RCA) or HDMI cable is firmly connected to the TV.
- Make sure that the antenna cable is properly connected to the product.
- Be sure to activate channel search.
- Check the brightness level of the TV.
- Check if the channel is currently on air. Contact the broadcaster to ensure that the channel is running.

3. Poor picture/sound quality

- Make sure there is no mobile phone or microwave oven near the product.
- Adjust the antenna direction to get a better picture.

- Set the antenna power in menu to On, if you use the active antenna to improve the reception (where applicable)

4. No or poor sound

- Check that your AV/HDMI cable is connected correctly.
- Check the volume levels of your TV set and the product.
- Check if the product or TV is on mute.
- Check audio type or soundtrack option. (where applicable)

5. Remote control does not operate.

- To control the product, the top end of the remote control should point directly towards the receiving part of the product.
- Remove and reinsert the batteries in the remote control.
- Replace the batteries in the remote control for a new set.

12. Technical Specifications

MPEG

Transport Stream	MPEG-2 ISO/IEC 13818 Transport stream specification
Profile Level	MPEG1, MPEG-2 MP@ML, H.264, VC1, DV, DivX, and MPEG4
Input Rate	80 Mbps for MPEG Transport Stream and 25 Mbps for DV streams
Aspect Ratio	4:3, 16:9
Video Resolution	576i, 576p, 480i, 480p, 720p50, 720p60, 1080i, 1080p
Audio Decoding	MPEG-2 layer I and II (Music cam), MPEG4 AAC and MPEG4 AAC-HE (AAC+), Dolby Digital (AC-3) with bit rates up to 640 K bits /s, LPCM up to 48 KHz, MP3.
Audio Mode	Single channel/Dual channel/Joint stereo/Stereo
Sampling	32, 44.1 and 48 KHz

Power Supply

Input Voltage	AC 100 ~240V, 50/60Hz
Power Consumption	Max. 25 W
Protection	Separate internal fuse. Input shall have lightning Protection

Physical Specification

Weight (Net)	About 2.5kg
Operating Temp	0°C to + 40°C
Storage Temp	-40°C to + 65°C
