

How to Update Software for SRT RB2

Please Read Before Installing new software

1. Select the software version for you model (SRT RB2) by clicking on the 'Download' section of the Software Update section of the website **www.strong.com.au**.
2. A window will appear on the screen, select 'Save' option and save the file to your desktop.
3. Select Close option.
4. Plug your Micro SD Card (32GB or smaller) into your PC.
5. Right click file and 'Send To' MicroSD Card on PC. Remove you MicroSD Card from PC
6. Turn your Rock-Box on, then insert Micro SD CARD Reader on unit (Gold strip facing up)
7. A message should come on screen, click 'Install', if nothing happens within 30 secs, remove SD Card and re insert.
8. Wait till Rock-Box re starts. Do NOT power unit off during software update

Fix:

1. Remote control responsiveness improved and fixes a problem where when connected to WiFi, holding down the directional keys on the remote only acted as though you pressed the button once
2. Netflix had a problem where playing back any video would cause it to load indefinitely, it now plays back fine
3. If the system bar (bottom of the screen) is hidden, you can press the mouse button twice to bring it back up with this version of software removing the need for a mouse to do it
